Onsite Environmental Monitor

Position Title:

Onsite Environmental Monitor (2 positions available)

Position Description:

Roux Associates seeks two qualified candidates for the role of Onsite Environmental Monitor at the Pacific Park Brooklyn Project (formerly known as the Atlantic Yards Redevelopment Project which included the construction of the Barclays Center). This position would be working on behalf of the developer to ensure compliance with the Project's Environmental Impact Statement requirements which is under the oversight of the Empire State Development.

There are a number of ongoing requirements in place to minimize the effects of the construction of the Pacific Park Brooklyn Project on the surrounding community. This position is responsible to be onsite daily (including nights and weekends when warranted) validating all requirements are being met. These requirements are primarily in the areas of Traffic & Truck movement, Noise & Vibration, and Air Quality.

The successful candidate will have some construction knowledge, be detail-oriented, organized, conscientious, trustworthy, and communicative. We require a minimum of a high-school education. Some trade or technical skills may be helpful. This is a full-time (40 hours per week) position, benefit-eligible, with available overtime (paid at time and one-half). The starting pay rate for this position is approximately \$15.00 per hour.

If you are interested candidates must visit the Careers page of our Roux Associates, Inc., website and follow the on-line application process. For more information or to apply please [click here](#)
