

## **Environmental Health & Safety Officer – Greenpoint, Brooklyn, New York**

Roux Associates, Inc., a national consulting and management firm headquartered in Islandia, New York, seeks a full time, Health & Safety Officer at our project site in Greenpoint, Brooklyn. The Health & Safety Officer will be the lead safety officer for a large-scale remediation project, will be responsible for organization/presentation of safety meetings and safety training; review, analysis, preparation, and completion of safety-related reports; and is responsible for overall stewardship of the safety program at the site.

### **Responsibilities:**

- Preparation and leading of daily safety meetings
- Field inspections of work areas for safety compliance
- Preparation, organization, review, and analysis of safety reports and database
- Analysis of safety trends, evaluation of causal factors and development of targeted programs to improve site safety
- Training and mentoring entry-level staff and subcontractors in safe execution of field activities (e.g., drilling, excavation, sampling)

### **Qualifications and Technical Skills Requirements:**

- Minimum 2 years field experience in environmental remediation or construction industry
- Bachelor's Degree in engineering or environmental science
- Understanding and ability to use Microsoft Office programs
- Ability to lead safety discussion and presentations in a group setting
- Existing knowledge/experience with Loss Prevention System (LPS) or other behavioral based safety program preferred

### **Benefits:**

We offer a comprehensive benefits package which includes:

- Competitive salary, commensurate with experience
- Annual bonus based upon performance
- Medical, Dental, Vision, Health Savings Account, Flexible Spending
- Life and Disability Insurance
- 401(k) Plan
- Paid Time Off
